

# Kids Prayer Kits

## Overview

These Kids Prayer “kits” are designed to help children pray, with the help of their parents. Older children (readers) may be able to use the kits independently. There are 10 unique kits (see “Putting it all Together” section for short descriptions of each kit); each kit contains a card and all supplies necessary to complete the prayer activity. The card will explain the activity and offer a sample prayer that children may read and repeat, or simply use as a guide.

## How to Use

Each kit should be self-contained in a zipper bag or zipper plastic folder, to keep supplies together. If you will be using these kits during a church prayer meeting, consider how many children currently attend; you may want to make a second (or third) set of kits so that parents and children have options to choose from, and are not waiting for others to finish.

*(If you are using these kits for personal use, you may simply store all of the supplies in a box, or separate them into Ziploc bags.)*

Although these kits are intended for use by individual parents and children, they can also easily be used during a group session like a Sunday School class.

## Supply List (for a set of 10 unique kits)

- 10 Zip Folders
- 10 Labels (to place on the front of each zip folder)
- Map of your city (if your city/town is small, you may simply wish to print maps from Google instead)
